## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grabow (US 4702153) and Deutsch (US 5351337).

Grabow discloses a galley type kitchen arrangement for use in an aircraft but does not disclose the specifics of the water heater hookups as claimed. Deutsch discloses a water heating and dispensing system for use in a confined space having the claimed structure. It would have been obvious to one of ordinary skill in the art at the time the invention was made, in view of Deutsch, to modify the device of Grabow to use the specific arrangement of Deutsch in the galley type arrangement since both are shown in the art to be useable together.
